

## ANNOUNCEMENTS

## 2 News

## EDITORIAL: PALEO CONSTRAINTS ON SEA-LEVEL RISE

- 3 **A decade of PALSEA: Advances and future aims**  
Natasha L.M. Barlow, G.A. Milne and J.D. Shakun

## SCIENCE HIGHLIGHTS: PALEO CONSTRAINTS ON SEA-LEVEL RISE

- 4 **Peak sea level during the warm Pliocene: Errors, limitations, and constraints**  
Kenneth G. Miller, M.E. Raymo, J.V. Browning, Y. Rosenthal and J.D. Wright
- 6 **What do we know about Last Interglacial sea level?**  
Andrea Dutton and Natasha L.M. Barlow
- 8 **Late Holocene sea level**  
Robert L. Barnett, A.C. Kemp and W.R. Gehrels
- 10 **Sea-level databases**  
Nicole S. Khan, F. Hibbert and A. Rovere
- 12 **Interglacial ice extents of the Greenland ice sheet**  
Anders E. Carlson and Nicolaj K. Larsen
- 14 **On recovering Last Interglacial changes in the Antarctic ice sheet**  
Louise C. Sime, A.E. Carlson and M. Holloway
- 16 **Advances in glacial isostatic adjustment modeling**  
Glenn A. Milne, D. Al-Attar, P.L. Whitehouse, O. Crawford and R. Love
- 18 **The importance of dynamic topography for understanding past sea-level changes**  
Jacqueline Austermann and Alessandro M. Forte
- 20 **Paleo ice-sheet modeling to constrain past sea level**  
Bas de Boer, F. Colleoni, N.R. Golledge and R.M. DeConto
- 22 **Arctic warming and the Greenland ice sheet during the Last Interglacial**  
Bette L. Otto-Bliesner, M. Lofverstrom, P. Bakker and R. Feng
- 24 **The importance of sediment in sea-level change**  
Ken L. Ferrier, W. van der Wal, G.A. Ruetenik and P. Stocchi
- 26 **Storms and extreme events: Insights from the historical and paleo record**  
Simon E. Engelhart, J.E. Pilarczyk and A. Rovere
- 28 **Geological records of past sea-level changes as constraints for future projections**  
Benjamin P. Horton, R.E. Kopp, A. Dutton and T.A. Shaw

## WORKSHOP REPORTS

- 30 **Climate variability in Antarctica and the Southern Hemisphere over the past 2000 years**
- 31 **Understanding past changes in sea ice in the Southern Ocean**
- 32 **Impacts of sea-level rise from past to present: iSLR18**
- 33 **Climate, ice sheets and sea level during past interglacial periods**
- 34 **Abrupt changes, thresholds, and tipping points in Earth's history and future implications**
- 35 **Trace element and isotope proxies in paleoceanography: Starting a new synergic effort around marine geochemical proxies**
- 36 **Past plant diversity changes and mountain tree species conservation**
- 37 **Archaeology that counts: International colloquium on digital archaeology**
- 38 **Co-designed paleo experiments on land-cover and land-use change impacts**
- 39 **Global soils and sediment transfers in the Anthropocene: Database meeting**
- 40 **Analyses of the SISAL database: Regional patterns in isotope signatures**
- 41 **A joint effort to bring together global, regional modeling and proxy communities**
- 42 **Methods and interdisciplinary communication in historical climatology**

## OBITUARY

- 43 **Bruno Messerli (1931-2019)**
